Sponsors, Partners & Contributors

& SCIP Team

In our persistent effort over the past 6 months to revamp and get control over SCIP digital assets and payments systems that remained scattered, you may have noticed intermittent changes and slowdown in communication. We expect to gain full control and to restore Member Communication in another 1 month. Thanks for your patience and we are glad to organize a virtual “Open House” session with Members and past stakeholders to gather inputs and share updates during mid-July 2026. An announcement for that comes shortly

The current community update and all archival ones along with Quarterly SCIP I_MAG to be available from June 2026 at **www.scip.world.**
